EXPERIENCE

Department Of Telecommunications Haryana L.S.A, Remote — *Trainee SD*

Aug 2019 - sept 2019

During internship I have developed a test Android Application that is used to detect and collect data of call drops.

EDUCATION

Dhirubhai Ambani Institute of Information and Communication Technology, Location — *M.S.C(IT)*

MONTH 2020 - MONTH 2022

Aggregated C.P.I : 8/10

G.L.S University, Ahmedabad — *B.C.A*

June 2017 - Aug 2020

Aggregated C.G.P.A : 9.24 / 10

PROJECTS

Road Surface Quality Inspection System

We developed an integrated cost-effective device (to be installed on vehicles) having the capability to determine the bad surface quality roads (rough surface roads, rough speed bumps, potholes...etc) and give this information along with the location and video proof to the organization

Frontend: Android, Bootstrap

Backend: Node js, Express Js, Mysql

Hardware: Raspberry Pi, G.P.S sensor, Accelerometer

Web Module: <https://github.com/Himanshu72/RSQIS>

Android Module: https://github.com/Himanshu72/android_RSQIS

Teamify

You can use this tool to boost collaboration and foster communication.

SKILLS

Javascript

C/C++

Java

MERN Stack

Azure

Python

SQL

Mongo DB

Stood 1st in an inter-college quiz competition hosted by Vallabh Vidhyanagar

Stood 1st in Code Express (python Based) competition at G.L.S University

LANGUAGES

English, Hindi, Gujarati

Teamify tells you what's being worked on, who's working on what, and where something is in a process. The team can be managed by the team leader and the managers can manage different projects, it can also be used for personal use – more like a list-making/to-do tool. Project progress can be tracked and deadlines can be set. It makes assigning tasks and managing the team much easier. Make team management a smooth experience with Teamify.

Frontend: **Bootstrap**

Backend: **Node js, Express Js, MongoDB, Heroku**

Demo : <http://teamiify.herokuapp.com/>
